Public Notice – Closure of Environmental Case

This will serve as notice that the California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board) will be soliciting comments from the public regarding the pending closure of an environmental case at 2003 Main Street, Quincy, California.

SUBJECT SITE:

One Stop Mini Mart
2003 Main Street, Quincy, Plumas County

**PUBLIC PARTICIPATION COMMENT PERIOD: 16 November 2016 through
15 January 2017**

SUMMARY:

The Central Valley Water Board currently regulates an environmental case at the subject property regarding a historical release of gasoline to the soil and groundwater from four removed underground storage tank systems. Several phases of investigation and excavation of contaminated soil were completed at the property in order to further evaluate the extent of petroleum hydrocarbons in soil and groundwater. An ozone injection was used as a remedy to address groundwater contamination. The latest groundwater monitoring (conducted in 2011) showed that the remaining onsite pollution is relatively immobile and of limited threat to human health and the environment.

As such, the site's environmental case appears to meet the criteria of the State Water Resources Control Board's 'Low Threat Closure Policy'. Given these conditions, the Central Valley Water Board is recommending that the environmental case on the subject property be closed.

WHERE DO I GET MORE INFORMATION?

General Information regarding the Site can be obtained from the State Water Board's GeoTracker web site at: <http://geotracker.waterboards.ca.gov/>

All interested agencies, groups and persons wishing to comment on the pending case closure must provide these comments in writing. The comments should be submitted in writing by 15 January 2017 to the Central Valley Water Board's office at 364 Knollcrest Drive, Suite 205, Redding, CA 96002. For information, please call Kate Burger at (530) 223-2081 or contact her by e-mail at kate.burger@waterboards.ca.gov
